

2016-2019 Regional Health Priority Scorecards and Tool Kits Chronic Disease, Substance Use, and Social Determinants of Health

WNC Healthy Impact provides local hospitals and public health agencies with tools and support to collect, visualize, and respond to complex community health data. **Online Scorecards** share real-time information with community members, partners, leaders, and funders about how they are improving the health of their communities.

Online Scorecards may be used to:

- Connect to resources
- Display shared topics of interest
- Identify shared performance measures
- Store regional comparison data
- Encourage collaboration

Regional Substance Use Scorecard and Toolkit

WNCHEALTHYIMPACT

This Regional Substance Use Scorecard was created to support WNC hospital and health departments address this regional priority at a local level by:

- Connecting to regional partners, evidence-based interventions, local news & research and funding opportunities for Substance Use and Tobacco Use.
- Displaying shared Programs/Strategies/Processes across the region for peer support, alignment, and learning
- Identifying shared Performance Measures & regional comparison data
- Encouraging collaboration

This scorecard/toolkit was co-developed and prototyped by members of the WNC Healthy Impact Regional Priority Ad Hoc Workgroup, including hospital, health department, and key regional partners.

Visit wnchealthyimpact.com for more information on WNC Healthy Impact.

Click here for a list of Substance Use and Tobacco Use processes/policies/strategies/programs included in:

- 2016-2019 Hospital Implementation Strategies
- 2015 State Action Plans (Local Health Departments)
- 2015-2017 EBCT Tribal Health Improvement Plan (THIP)

This is not a comprehensive list of everything that is happening in WNC related to Chronic Disease and represents only those processes, policies, strategies and programs from the sources listed above.

Please contact Jo Bradley (jo.bradley@wncn.org) if you come across any incorrect information or information that needs to be updated.

Last updated 11/22/17

Population Result & Indicators
